

EASTERN MEDITERRANEAN UNIVERSITY

SCHOOL OF COMPUTING AND TECHNOLOGY (SCT)

The first and only technology school in TRNC

School of Computing and Technology

SCT was established in 1979 and is the most experienced academic unit of EMU.

There are more than 800 registered students at the SCT.

International students constitute 30% of SCT's students.

School of Computing and Technology

Instruction language of SCT;

The language of instruction of Master's and Undergraduate programs is **English**.

The instruction language of 10 technician program is **Turkish**.

The instruction language of 7 technician (3 Years) program is **Turkish**.

Accreditations

 The logo for FIBAA Accredited Programme, featuring a blue circle with a white 'X' shape in the center, surrounded by the text 'ACCREDITED PROGRAMME' and 'FIBAA'.	<p>FIBAA: Foundation for International Business Administration Accreditation The EMU Accounting and Taxation Application, and Medical Documentation and Office Management programs have FIBAA accreditation. http://www.fibaa.org</p>
 The logo for ASIIN, featuring a blue arch shape above the text 'ASIIN' in bold black letters.	<p>ASIIN & Euro-Inf. Label: Accreditation Agency for Degree Programmes in Engineering, Informatics, Natural Sciences and Mathematics The EMU Information Technology master's program, and Computer Programming and Information Technology programs have FIBAA accreditation. http://www.asiin-ev.de</p>

Accreditations

 The logo for Edexcel, consisting of the word 'edexcel' in a lowercase sans-serif font, followed by a grid of blue dots. Below the logo is the tagline 'advancing learning. changing lives'.	<p>EDEXCEL: Higher National Diploma-HND-UK EMU school of Computing and Technology and the faculty of Tourism Management are the authorized EDEXCEL centers. http://www.edexcel.com</p>

Certificates

Euro-Inf Label: Euro-Inf Bachelor Quality Label (Bachelor Awarded by EQANIE-European Auality Assurance Network for Informatics Education e.V.) EMU Computer Programing and Information Technology program has Euro-Inf label certification.
<http://www.eqanie.eu/pages/quality-label/accredited-programmes.php>

ASIIN & Euro-Inf. Label: Accreditation Agency for Degree Programmes in Engineering, Informatics, Natural Sciences and Mathematics EMU Computer Programing, Biomedical Equipment Technology, Electric and Electronics Technology, Mapping and Cadastral survey, Constriction Technology associate degree programs has ASIIN certification.
<http://www.asiin-ev.de>

Accreditations and Certificates

SCT Programs

SCT has 19 programs in total.

1 Master's

1 Bachelor's (undergraduate)

10 Associate(2 Years)

7 Technician (3 Years)

These Programs

Information Technology (Master's–English)

Constriction Management (2 and 3 Years–Turkish)

Computer Programing and Information Technology (4 Years Bachelor–English/Turkish)

Mapping and Cadastral survey (2 and 3 Years–Turkish)

Computer Programing (2 and 3 Years–Turkish)

Computer Aided Technical Drawing (2Years–Turkish)

Biomedical Equipment Technology (2 and 3 Years–Turkish)

Electric and Electronic Technology (2 and 3 Years–Turkish)

Medical Documentation and Office Management (2 and 3 Years–Turkish)

Accounting and Taxation Applications (2 and 3 Years–Turkish)

Office Management and Secretariat (2 Years–Turkish)

Banking and Insurance (2 Years–Turkish)

SCT's Goals

It will educate experienced staff, who:

Fluent to foreign languages,

Able to use computer and technology effectively,

Follow the developments in the expert area and profession,

Fit and appropriate for team-work,

To meet the business world's and industry's requirements.

Educational model of SCT

Practical and applicable education,

Project based training,

Learning based education,

Integration with industry.

SCT's Laboratories

**Doğu Akdeniz
Üniversitesi**
"Erdem, Bilgi, Gelişim"

9 Computer Laboratories

1 Computer Aided Drawing
Laboratory

1 Office Management Laboratory

1 Computer Hardware Laboratory

1 Biomedical Laboratory

2 Electric installation Laboratory

1 Electronic Laboratory

1 Microprocessor Laboratory

1 Printed Circuit Laboratory

1 Technical Drawing Salon

SCT's Laboratories

SCT's Laboratories

Printed Circuit Laboratory

Technical Drawing Salon

Student Facilities at SCT

Unlimited internet for all students at the campus and the department.

Free working laboratories during the day, at night, and on weekends.

Project Development Opportunities.

Projection supported laboratories and classes.

Supporting courses in SCT laboratories with up-to-date software used in the market place.

Student Facilities at SCT

Up-to-date technical tools for technical education.

A computer facility for each student in the laboratories.

Open door policy of instructors.

Disability assistance.

Other advantages of SCT

Entrance without exam:

Vocational high school graduates can register to the Turkish technician (2 years) programs without an examination since 1999.

TRNC citizens who graduated from the technician (3 years) programs have the right of being reserve officers.

Scholarship Opportunities

Government/State Scholarships:

All TRNC students who entered without exam (2.50/4.00) will reward with state scholarship regardless of their family status.

Merit Scholarship:

Merit scholarship for high school or vocational schools' degree graduates.

Merit scholarship for the top result of entrance exam.

Sports Scholarship.

High honour reward.

About Registration

School tuition fees are TL.

Dormitory is offered for all new students.

For more information visit our website: "<https://www.emu.edu.tr/prospectivestudents>".

Details of our Master,
Undergraduate, Associate and
Technician (2 years, and 3
years) programs.

Information Technology (Master)

Program Goals:

To train information technology experts who design, implement, maintain, and evaluate information technology projects by combining technical knowledge and theory in line with increasing global needs, by providing masters' study opportunities with up-to-date computer technologies.

Program Duration: 1- 1/5 years

Instruction language is **English**.

Has label accreditations of ASIIN and Euro-Inf.

Graduate diploma is given.

Information Technology (Master)

Courses

IT Project Management.

Advanced Software Design and Development.

Research Methods and Ethics in Information Technologies.

Computer Networking Applications.

Elective courses.

Term Projects.

Information Technology (Master)

JOB/CAREER OPPORTUNITIES

System Engineer, Software Engineer

Software Development Specialist, Software Support Specialist, Mobile Software Development Specialist

IT Specialist, Web and Social Media Specialist

Network Systems Specialist, Pre-Sales Technology Specialist

E-Commerce/E-Trade Manager, Project Team Manager

Information System

Interface Developer

Instructor

Computer Programing and Information Technology (4 years Bachelor)

Purpose of the Program:

To train staff members who have effective project development skills and who can follow and apply today's technology equipped with the knowledge and skills required for software techniques.

Instruction language is **English/ Turkish**.

The OSYM quota can vary every year.

Since 1994.

It provides the opportunity to do Master and Ph.D.

Program Duration: 4 Years.

Transfer students are accepted.

Has label accreditations of ASIIN and Euro-Inf.

Computer Programming and Information Technology

1. Year Courses

Information Technology Fundamentals

Algorithm and Programming Techniques

Introduction to Business

Basic Mathematics

English I

Structured Programming

Introduction to Multimedia

Discrete Mathematics for Information Technologies

English II

Ataturk's Principles and History of Turkish Revolution

University Elective course I

Computer Programming and Information Technology

2. Year Courses

Database Management Systems

Operating Systems

Data Structures and Applications

Database Programming

Human-Computer Interaction

Rich Internet Application (RIA) Development

Client-Side Internet and Web Programming

Object Oriented Programming

Computer Organization and its Architecture

Digital Logic Design

Computer Programming and Information Technology

3. Year Courses

Computer Networks I

System Analysis and Design

Server-Side Internet and Web Programming

Introduction to Statistics

University Elective II

Computer Networks II

Multi-Platform Programming

Software Engineering

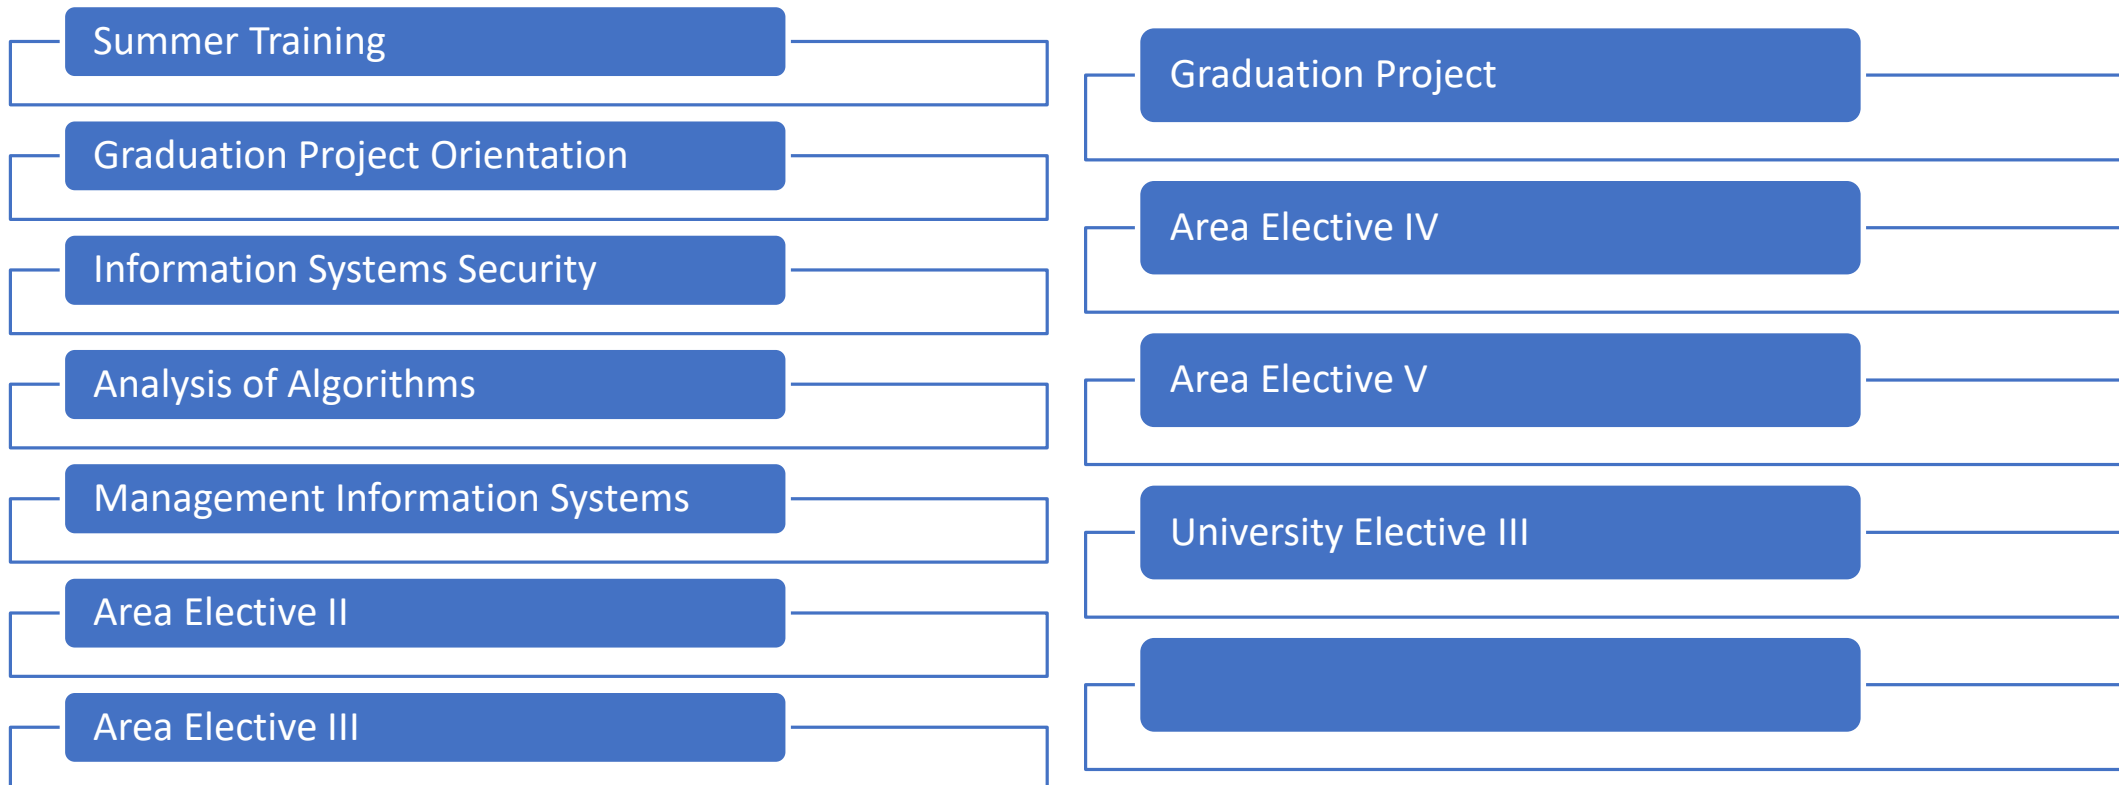

Ethical and Social Issues in Information Systems

Area Elective I

Computer Programing and Information Technology

4. Year Courses

Computer Programing and Information Technology

JOB/CAREER OPPORTUNITIES

Website design, programming and management

Database design and management

Software Engendering

System architecture

System analysis and design

Computer programming

Project team management

Computer networks setup and management

Computer Instructor

Computer Programming

Purpose of the Program:

To train staff (intermediate) who can set up computer and computer systems, do all kinds of web operations of businesses, develop application programs for businesses, and successfully fulfill these duties and responsibilities.

Program duration: 2+1 Years

Instruction language is **Turkish**.

Has label accreditations of ASIIN and Euro-Inf.

Quantitative 1 score is required.

OSYM quota varies every year.

Transfer students are accepted.

Computer Programming

1. Year Courses

Basic English I

Mathematics for Electronic Technician

Introduction Algorithm and Programming

Fundamentals of Information Technologies

Basic Office Applications

Electrotechnology

Basic English II

Data Structures and Programming

Database Management Systems

Principles of Business

Introduction to Computer Hardware

Ataturk's Principles and History of Turkish Revolution

Computer Programming

2. Year Courses

Visual Programing

Internet Programing I

Operating Systems

System Analysis and Design

Object Oriented programming

Area Elective I

Summer Training

Software Architecture

Internet Programing II

Computer Graphics and Animations

Computer Networks

Area Elective II

Area Elective III

Computer Programming

3. Year Courses (2-year's associate degree students can continue)

E-Commerce Applications

Semester Training

Information System Security

Graduation Project

Internet Application Using Database

Advanced Desktop Applications

Advanced Animation Techniques

Computer Programming

JOB/CAREER OPPORTUNITIES

Website design and programming

Database applications and development

Computer setup and maintenance

Computer Programming

Computer networks maintenance

Desktop publishing

System development and implementation

Electric and Electronics Technology

Purpose of the program:

To train qualified intermediate staff in terms of electronics, microprocessors, electrical installations, motor control and winding techniques and computer hardware .

Program duration : 2+1 years .

Instruction language is **Turkish**.

It has ASIIN accreditation.

Quantitative 1 score is required.

OSYM quota varies every year.

Transfer students are accepted.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Electric and Electronics Technology

1. Years Courses

Basic English I

Basic English II

Mathematics for Electronic Technician

Electronics I

Vocational Orientation

Digital Electronics

Electrotechnology

Computer Applications

Introduction to computer

Electrical Installation I

Electronic Material Properties

Field Elective

Electric and Electronics Technology

2. YIL DERSLERİ

Occupational Terminology

Electronics II

Microprocessors

Electrical Installation II

Electric Machines and Domestic Appliances

Area Elective

Summer Training

Electronics III

Electronic-Lab

Electrical Installation III

Introduction to Computer Hardware

Area Elective

Ataturk's Principles and History of Turkish Revolution

Electric and Electronics Technology

3. Year Courses (2-years's associate degree students can continue)

Microprocessor Applications

Industrial Internship

Digital Electronics Applications

Graduation Project

Industrial Electronics

Computer Hardware Applications

Technical Elective

Electric and Electronics Technology

JOB/CAREER OPPORTUNITIES

Controlling of building and industrial electrical installations, projecting, applications.

Maintenance and repair of electrical machines and household appliances

Computer assembly, maintenance and repair services

Laboratory technical teacher

Industrial machinery electronics

Microprocessor applications

Data communication

Electronic circuit design and production

Solar and wind energy projects

Biomedical Equipment Technology

Purpose of the Program:

To train technical staff who qualified with medical device maintenance skills, could repair and use them, and to improve the quality of work in the marketplace.

Program duration: 2+1 years.

Instruction language is **Turkish**.

It has ASIIN accreditation.

Quantitative 1 score is required.

OSYM quota varies every year.

Transfer students are accepted.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Biomedical Equipment Technology

1. Year Courses

Basic English I

Basic English II

Mathematics for Electronic Technician

Electronics I

Anatomy and Physiology

Digital Electronics

Electrotechnology

Computer Applications

Introduction to Computer

Medical Instrumentation

Properties of Electronic Material

Medical Communication

Biomedical Equipment Technology

2. Year Courses

Electronics II

Microprocessors

Medical Instrumentation II

Fault Analysis in Biomedical Systems

Medical Imaging Systems

Occupational Terminology

Summer Practice

Biomedical Signal Processing

Medical Applications

Ataturk's Principles and History of
Turkish Revolution

Biomedical Equipment Technology

3. Year Courses (2-years's associate degree students can continue)

Microprocessor Applications

Industrial Electronics

Laser and Medical Applications

Hospital Organization and Management

Area Elective

Medical Training

Laboratory Support Equipment

Diagnosis and Tracking Devices

Biomedical Device Technology

JOB/CAREER OPPORTUNITIES

In public and private hospitals

In dispensaries

In laboratories

In medical equipment companies or technical service providers

In the own business

Construction Technology

Purpose of the program:

To teach the activities in the construction industry by using application techniques in classroom and construction site with the help of today's technology and to educate students especially on worker health and safety.

Program Duration: 2+1 years.

Instruction language is **Turkish**.

It has ASIIN accreditation.

YGS-1 score is required.

OSYM quota varies every year.

Transfer students are accepted.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Construction Technology

1. Year Courses

Basic English I

Basic English II

Map Trigonometry

Computer Applications for Construction

Basic Technical Drawing

Topography I

Construction materials

Construction Technology I

Introduction to Computer

Engineering Drawing I

Vocational Orientation

Computer Aided Drawing (CAD) I

Construction Technology

2. Year Courses

Area Elective

Computer Aided Drawing (CAD) II

Topography II

Construction Technology II

Engineering Drawing II

Architectural Detail Drawing

Summer Training

Area Elective

Computing of Static and Structure

Concrete Technology

Quantities

Construction Site Technique

Fundamentals and Regulation of Statics and Arch. Projects

Ataturk's Principles and History of Turkish Revolution

Construction Technology

3. Year Courses (2-years's associate degree students can continue)

Cost Estimating

Training in Industry

Safety in Constriction

Graduation Project

Architectural drawings

Construction Management

3D Computer Aided Drawing

Construction Technology (2years)

JOB/CAREER OPPORTUNITIES

Quantum discovery and progress payments

Land and building measurement works

Ready-mixed concrete production and quality control works

Asphalt and infrastructure works

Topographic land and building measurement works

Technical drawing works in project offices (AutoCAD etc.)

Construction Technology (2+1 years)

JOB/CAREER OPPORTUNITIES

Site technician

Quantity and exploration works

Land and building measurement works

Taking part in ready mixed concrete plants

Asphalt and infrastructure works

Topographic land and building measurement works

Technical drawing works in project offices (AutoCAD etc.)

Model making works

Mapping and Cadastral Survey

Program Purposes:

to bring up intermediate workforce acting as a bridge between the engineers and the workers in the development and implementation of maps and plans serving as a basis for dams, irrigation, construction, roads, drainage and other similar infrastructure projects.

Program duration: 2+1 years.

Instruction language is **Turkish**.

It has ASIIN accreditation.

YGS-1 score required.

OSYM quota varies every year.

Transfer students are accepted.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Mapping and Cadastral Survey

1. Year Courses

Map applications

Topography I

Map Trigonometry

Map Information

Basic Office Applications

Basic English I

Map Drawing I

Topography II

Professional Ethics

Mapping and Cadastral Survey Law

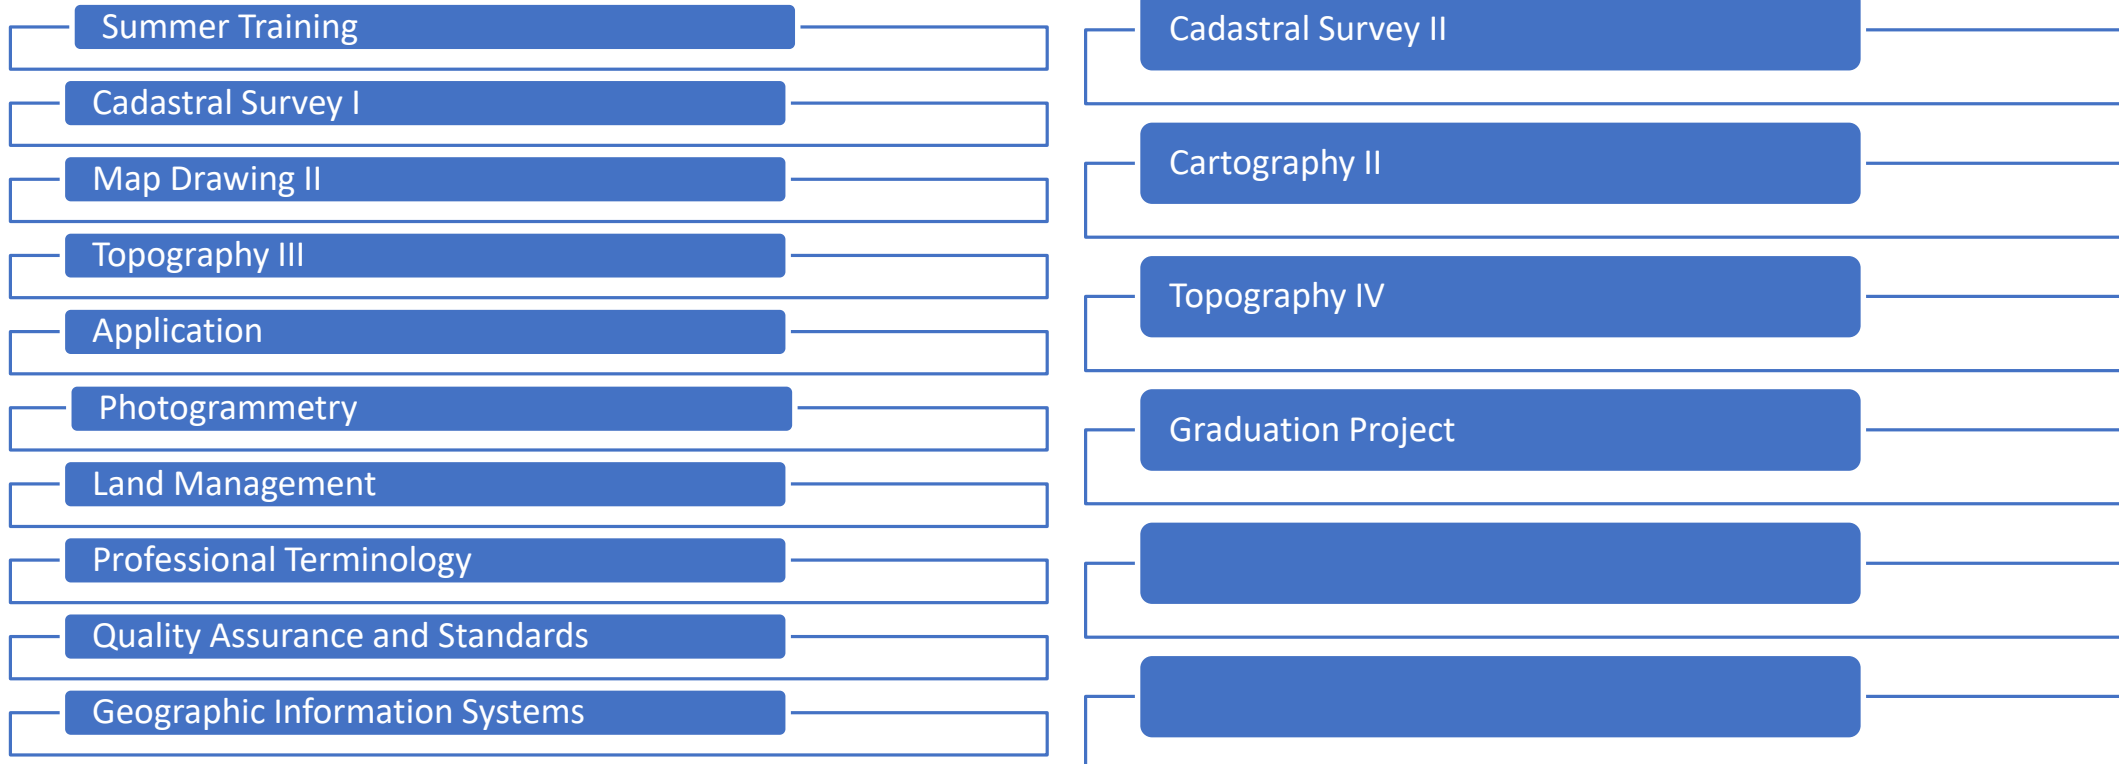

Cartography I

Basic English II

Ataturk's Principles and History of Turkish Revolution

Mapping and Cadastral Survey

2. Year Courses

Mapping and Cadastral Survey

3. Year Courses (2-years's associate degree students can continue)

Highway Information

Mapping Training

Application Methods in Land Registry and Cadastre

Topographic Map Design

Application of City Planning

Cost Estimation in Cadastre

Technic Elective

Computer Aided Mapping

Mapping and Cadastral Survey (2+1 Years)

JOB/CAREER OPPORTUNITIES

Land Registry and Cadaster Office or related government offices

Municipalities

In the Department of Highways

In Map Circle

In Map offices that measure land

Own Company

In project and engineering services companies

Infrastructure companies

Accounting and Taxation Applications

Purpose of the program:

To train intermediate staff who have theoretical and applied accounting knowledge, have knowledge of economics, business administration and finance, and can use accounting and business information in the most efficient way in the computer environment.

Program Duration: 2+1 Years.

Instruction Language is **Turkish**.

Equal weight point score type is required.

OSYM quota varies every year.

Transfer students are accepted.

It has FIBAA accreditation.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Accounting and Taxation Applications

1. Year courses

Basic English I

Financial Accounting I

Vocational Foreign Language

Computer Applications I

Mathematics

Basic English II

Financial Accounting II

Statistics

Computer Applications II

Introduction to Business

Accounting Applications I

Accounting and Taxation Applications

2. Year courses

Area Elective

Corporate Accounting

Managing Information

Taxation

Computerized Accounting I

Accounting Applications II

Summer Training

Area Elective

Period-End Accounting Procedures

Auditing

Business Law

Computerized Accounting II

Money and Banking

Ataturk's Principles and History of Turkish Revolution

Accounting and Taxation Applications

3. Year Courses (2-years's associate degree students can continue)

Managerial Accounting

Marketing principles

Financial Reports

K.O.B.İ Management

Business Strategies

Technical Elective

Graduation Project

Term Training

Accounting and Taxation Applications

JOB/CAREER OPPORTUNITIES

In Accounting department of Private Organizations

Shipping Companies

Off-Shore Banks

Commercial Banks

Medical Documentation and Office Management

Program Purposes:

to graduate intermediate workforce in the administrative services of the health institutions. Students, who graduate from this program compile, organize and present medical scientific findings and documents by using technology effectively, have a good command of medical terminology, possess high level medical clerical skills, will work as managers of health services or support academic and/or health specialists or undertake duties in the human resources department.

Program Duration: 2+1 Years.

Instruction Language is **Turkish**.

Verbal score type required.

OSYM quota varies every year.

Transfer students are accepted.

It has FIBAA accreditation.

It is possible to transfer to 4-years Engendering programs (DGS is required for students from Turkey).

Medical Documentation and Office Management

1. Year courses

English I

Anatomy

Medical Documentation-I

Medical Terminology

Office Management Techniques- I

Medical Diseases Information-I

Introduction to Computer

First Aid

Keyboarding I

Business writing

Medical Documentation and Office Management

2. Year courses

English II

Business Writing Technique Application

Keyboard Applications

Physiology

Health Service Management I

Medical Diseases Information-II

Office Management Techniques- II

Basic Mathematics

Electronic Spread Sheets

Medical Documentation and Office Management

3. Year courses

Professional Discourses

Medical Documentation Process

Health Service Management II

Public Health and Medical Ethics

Personal Information Management

Research Techniques

Introduction to Psychology

Biostatistics

Hospital Information Systems

Ataturk's Principles and History of Turkish Revolution

Medical Documentation and Office Management

4. Year courses

Occupational Training

After completing the first and second year courses, doing an internship in hospitals is compulsory.

Hospital Training will held in:

Gazimağusa State(Public) Hospital or

Lefkoşa Burhan Nalbantoğlu State Hospital or

other public and contracted private hospitals.

Medical Documentation and Office Management

3. Year Courses (2-years's associate degree students can continue)

Human Resource

Training

Business Law

Industrial Psychology

Verbal English for Business

Developing Communication Skills

Medical Documentation and Office Management

WORKING PLACES

All department of public hospitals

All department of private hospitals

Private clinics

Emergency Service

Imaging and Diagnosis centers

Laboratories

In Government Departments, Educational Institutions and Private Companies;

Office manager

Executive secretary

Manager assistant

Protocol officer

Human resources officer
